Sir:

With respect to the Notice of Allowance in the above-identified application, the Examiner's Amendment fails to acknowledge that the agreements entered into with the undersigned are based on a common understanding of the term "high order constellation." As agreed to by the Examiner and applicants, high order constellation shall be interpreted to mean transmission constellations having more than two constellation points (see attached). No such acknowledgement appears in the Notice of Allowance and, therefore, this paper corrects the oversight.

Any questions regarding this submission may be directed the undersigned at (202) 220-4235.

Respectfully submitted,

Date: May 10, 2006
